Senior plc announces multi-year contract with Rolls-Royce

Senior plc (“Senior”), an international manufacturer of high technology components and systems, today announces that it has been awarded a 5-year contract by Rolls-Royce for the supply of aerofoils for the Pearl engine family. The Pearl engine family is the power plant of choice on multiple in-production and upcoming ultra-long range business jet platforms.

Manufacturing will be undertaken at Senior Aerospace Thailand (SAT), Chonburi. SAT was recognised by Rolls-Royce as a class leading supplier in 2021, and since 2022 has been a member of the Rolls-Royce High Performance Supplier Group whose membership is strictly limited to the company’s highest performing suppliers.

Commenting on the award, Launie Fleming, CEO of Senior Aerospace, said: “Senior is proud to be recognised as a High-Performance Supplier to Rolls-Royce, and, with the award of this contract, delighted to have the opportunity to continue to provide our leading levels of quality, manufacturing expertise, and on-time delivery performance”.

About Senior Aerospace

Senior Aerospace provides high technology products and systems for demanding applications in the aerospace & defence and adjacent markets. Our product portfolio spans a wide range of fluid conveyance and thermal management components and sub-systems, as well as complex structural parts and assemblies, for fixed and rotary-wing aircraft, aero-engines, spacecraft, and a variety of other industrial applications. With a global footprint, Senior Aerospace manufactures proprietary design and build-to-print products for customers around the world that meet today’s challenges and is actively engaged in developing products and capabilities for a low carbon sustainable future.

About Senior

Senior is a FTSE 250 international engineering and manufacturing Group with operations in 12 countries. It is listed on the main market of the London Stock Exchange (symbol SNR). Senior’s Purpose is “we help engineer the transition to a sustainable world for the benefit of all our stakeholders”. Senior designs and manufactures high technology components and systems for the principal original equipment producers in the worldwide aerospace & defence, land vehicle and power & energy markets.
